

TractionBack® Plus

TractionBack® Plus is an adhesive-free system for high-moisture conditions. TractionBack® Plus combines a proprietary high-friction backing technology (TractionBack®) with the addition of connectors (applied in conjunction with TractionBack®).

New Construction:

Ready to install 30 days after concrete has been poured, no moisture testing required, no RH or pH limits

Renovation:

On-Ground & Above Ground: No moisture testing required, no RH or pH limits

Box Size: 9" x 4.5" x 8.5" (22.86cm x 11.43cm x 21.59cm) approximately

Connector Size: 4" x 4" (10.16cm x 10.16cm) approximately

Connector Material: 8mil Tyvek and High/High, Heavy Scrim Tape

Roll Size: 500 connectors per roll, 1 roll per box

Price: \$150 per box of connectors

CONNECTOR APPLICATION RATE:

The chart below shows the coverage rate (by square yard) based on 1 box of 500 connectors.

TILE SIZE	INSTALLATION METHOD		
	Monolithic/ Quarter-Turn / Multidirectional	Brick (Horizontal) / Ashlar (Vertical)	Herringbone
50cm square	108 m ²	54 m ²	n/a
1m square	438 m ²	230 m ²	n/a
25cm x 1m plank	108 m ²	54 m ²	54 m ²
50cm x 1m plank	225 m ²	112 m ²	112 m ²

TractionBack® Plus connectors are centered under each corner of the tile, regardless of tile size or installation method.
